

Community

Written by Ivy

I am part of several communities such as: my school community and my local community. But today I am writing about my Faith and light Community. Faith and Light is an international organisation and we meet every 2nd Wednesday each month. We don't have to wear particular clothing but we do have someone who leads each session (Jo). We always do a shared activity – it's usually craft themed. We also share news with each other. We always say a prayer and light a candle. The only rule we have that I know about is that we have to respect each other. Usually we meet in the same place but we do trips. My grandma is the faith and light treasurer for North England.

The Faith and Light Community Song (last verse)

It's Me, it's You

It's Us, it's Love

It's Christ

That builds Community.. lalala...

Chorus: Roll right over the ocean

Roll right over the sea

Go into the world and build Community
